PROFESSIONAL SUMMARY

Analytical and Detailed Oriented Full Stack Web Developer Capable of Writing Production-Ready code. Worked through 1200+ hours in a military-type structure, learning MERN stack web development with data structures and algorithm

EDUCATION

Full Stack Web Development, Masai School

01/2022 – 01/2023

Remote | Full Time

Bachelor Of Forensic Science,

Jharkhand Raksha Shakti University

08/2017 – 09/2020 | Ranchi

CGPA : 8.6 | Full Time

SKILLS

DSA | HTML | CSS | Javascript | ReactJS |
Redux | My SQL | Mongo DB | ExpressJS |
NodeJS | FIGMA | TypeScript | Python |
Github

SOFT SKILLS

Team Collaboration | Problem solving |
Proactive | Self Discipline | Good
Communication | Flexible

INTERESTS

Coding | Yoga | Reading Books | Cooking

WORK EXPERIENCE

Search Education, Full stack MERN Developer

03/2023 – 06/2023 | New Delhi, India

As a MERN Stack Developer, I had the opportunity to work with the cutting-edge technologies of the MERN stack(MongoDB, Express.js, React.js, Node.js).

- Designed and implemented responsive user interfaces using React.js, ensuring an optimal user experience across different devices and screen sizes.
- Developed RESTful APIs using Express.js and Node.js, enabling seamless data exchange between the front-end and back-end.
- Implemented authentication and authorization mechanisms, such as JWT (JSON Web Tokens), to enhance the security of the applications.

PROJECTS

FitClub.com 🔗

GitHub Repository (Individual Project) 🔗

A Single-Page Web Application for Gym

Features:

- Reusable Components | Fully Responsive | Animation
- Auto scrolling | Login/Logout | Automated Email

Tech Stack : CSS | Javascript | ReactJS

Credbee.com 🔗

GitHub Repository (Team Lead) 🔗

Credbee is a full-stack project built using MERN. Credbee is a subscription billing and revenue management platform.

Features:

- Fully Responsive website
- Login/Sign-Up backend Authentication

Tech Stack : React | Chakra UI | Node JS | MongoDB | Express JS

Area of Responsibility :

- Built Customers page and Partners page.
- Form validation on the partner's page.
- Review team members code.
- Successfully resolve all git merge issues.
